WITTUR SUPPLIES PARTS FOR OPERA HOUSE

Wittur SPA supplied a modernization package for two passenger elevators for Opéra Garnier in the Palais Garnier in Paris. The first elevator system was modernized in April, and the second in June-July. The lifts have a rated load of 2000 kg and are capable of speeds up to 1.6 mps. The two cars also feature Hydra glass-framed doors with a special silkscreen printing design in the lower part to give optical continuity to the nearby iron balustrade. The lifts are equipped with hidden car frames, all around half-height glass panels, mirrored ceiling and LED lighting.
