

WITTUR NEXT GENERATION ROLLERS

STRONG & SILENT

Benefits

1. STRONG AND SILENT SOLUTION

High level of robustness and reliability, combined with an exceptional low noise performance for all door rollers. (hanger, counter, synchro, emergency closing)

2. QUALITY STANDARDS GUARANTEED AS WITTUR ORIGINAL SPARE PARTS

Wittur Original rollers are designed, built and tested to guarantee reliability and long-lasting quality.

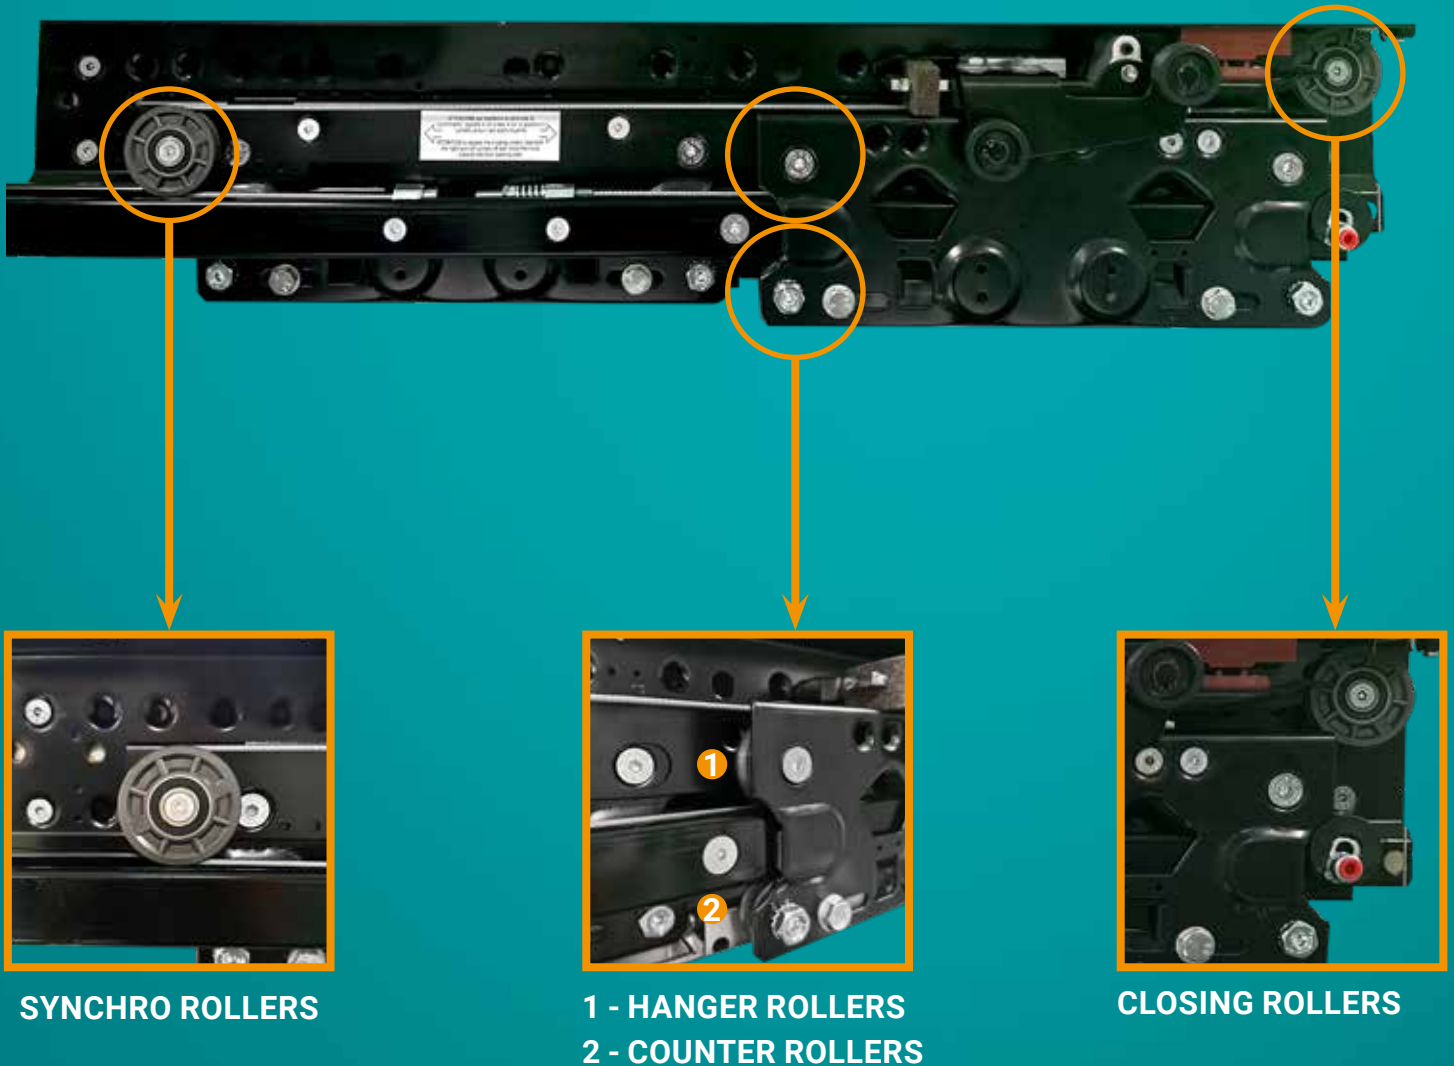

3. SUPPLY CHAIN SUSTAINABILITY

Reducing the risk of supply chain interruptions and building up a stronger sourcing foundation.

4. GLOBAL HARMONIZED DESIGN FOR NEW AND EXISTING INSTALLATIONS

Retrofit compatible with existing installations, available for Augusta Evo and Hydra.

Wittur Goes Silent: Why Change?

More Silent

New rollers make significantly less noise (up to 20%) and provide more comfort for end users.

More Robust

The new material and the design improve the robustness of the rollers.
Less unexpected breakdowns and downtime.

Harmonization

Released for use on Augusta Evo and Hydra; **more product lines to come** in the next months
Harmonization of rollers across Wittur Door Range.

Compatibility

Easier, uncomplicated maintenance.
More efficient spare parts management for customers and technicians.
1:1 backwards compatible with existing rollers.

Don't miss the chance to upgrade your existing doors now!
