

## DOOR OPERATOR SYSTEM

Hydra Plus is a door system that can be used with any kind of application, from residential buildings up to highly frequented office buildings and hotels. The compact construction ensures high flexibility especially for elevator modernization purposes. This product has technical features contributing to the performance improvement of your elevator:

- ◆ smooth operation even at high door speeds;
- ◆ low energy consumption;
- ◆ compliance with the standards: EN 81, Pubel, Lift Directive 95/169/EC;
- ◆ closing speed according to disabled people rules;
- ◆ small numbers of parts and therefore reduced number of spares and highly increased lifetime;
- ◆ pre-adjusted for application of extra safety devices: photocell, electronic detector and car door lock.

The operator Hydra Plus has three different belt-driven executions: ECO for low traffic installation: residential buildings and small offices; MIDI for medium-high traffic installation: public buildings, offices, medium-high traffic residential buildings and prestigious buildings; and SUPRA for high traffic installation: hotels, hospitals, ships, public buildings and prestigious buildings.
