About Wittur

Wittur is one of the world's leading independent elevator components manufacturer with an extensive global manufacturing footprint and sales network as well as a broad range of products. Its product offering features a large range of elevator components for new elevator manufacturing and sourcing, for spare parts and for modernization and upgrades. The components span from sophisticated mechatronic components for elevator cabin and landing doors (including the associated opening mechanisms) to other critical components such as gearless drives, slings, safety gears and cars. The Group also offers complete elevators, which are primarily sold to independent elevator installers. Installation of elevators and maintenance services are not part of Wittur's business.

The Group generated annual sales of EUR 521.9 million in 2014. It has a work force of over 3,300 employees and conducts business in more than 50 countries.
