WITTUR ORIGINAL SPARE PARTS

THE BEST FIT FOR
YOUR MAINTENANCE
AND MODERNISATION
PROJECTS

Wittur ensures the long-term availability of original spare parts for all its lift products. Using original spare parts is a guarantee of safe operations, continuous efficiency and best performance for your lifts.

3 REASONS to buy Wittur genuine spare parts

1 VALUE

Wittur spare parts are designed according to our engineering expertise, upgrades and new features not available elsewhere. Only this will guarantee you optimal operational performance at all time.

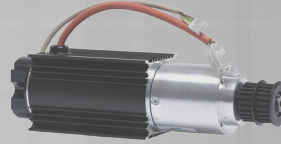

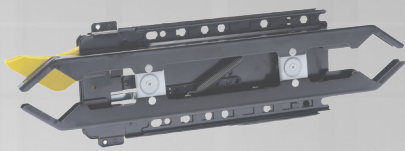

2 LESS DOWNTIME

We have well-stocked spare and replacement parts inventories – and when the parts you need are readily available, you can keep downtime to a minimum.

3 CUSTOMER SERVICE

When you buy parts from Wittur, you gain access to the high level of customer service that only we, as the original manufacturer, can provide. We give you not only a product but also excellent support, thanks to our after sales technicians and local sales team.

WITTUR

Discover our SPARE PARTS services

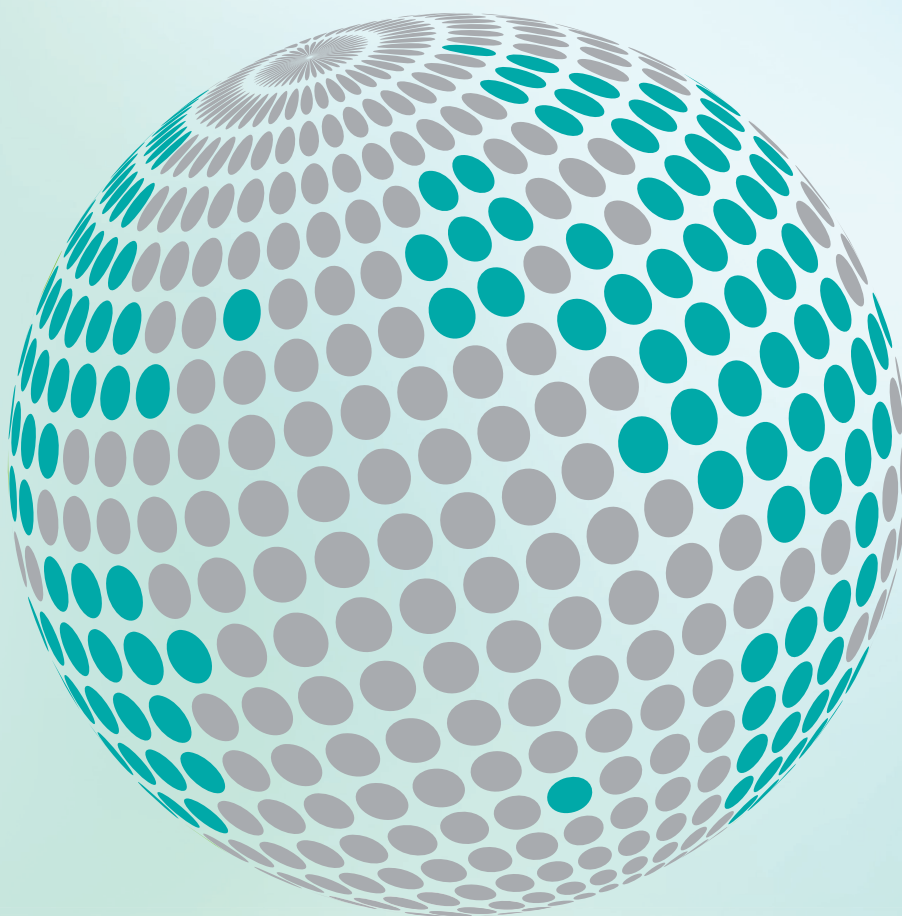

- Professional advice by experienced technicians
- Dedicated service for fast solutions and express delivery
- Guidance for parts replacement according to the latest norms and lift directives
- **witturshop.com** and **ecommerce.sematic.com** online platforms for product identification and ordering.

Online ordering at witturshop.com is available for German and Austrian customers only. Sematic shop is available all across Europe except France and the UK.
