

SILL DELUXE

PREMIUM SILL DESIGN
WITH LASER CUT SLOTS

safety *in* **motion**[™]

Wittur Sill Deluxe for **Hydra** and **Pegasus doors** is a **special stainless steel sill** execution with laser-cut panel slots.

Its structure accounts for a **clean elevator design**, as **no sill slot is visible** when the door is closed, also with side opening door types.

Deluxe sill is an aesthetic solution particularly suitable for 2- panel telescopic doors and 4- panel central doors, for all the sizes up to 1500 mm of clear opening. The solution is available also for other door types, please contact Wittur Sales for more information.

Can be installed with standard, framed glass or full glass panels.

Made of stainless steel, brushed surface finish.
